

Yannick: Anomalies are get rid off first by training

We are feeding it the time ser.  
→ it learns that  $LL$  is "normal"  
⇒ state transitions are diff to model

Q: Does it actually physically relate?

Comp. w. All80 Data

→ Focus on 1-2 regions  
other would be (GS?)

Willi: Decompress. Alg.

better proof of concept, (2)
